

SURENDARAN S

Python Full Stack Developer | Django | REST APIs | GenAI Tools

+91-6381112401 | surendaran.developer@gmail.com | Salem, Tamil Nadu

Portfolio: surendaran-portfolio.vercel.app | linkedin.com/in/surendaran-dev | github.com/surendaran-dev

PROFESSIONAL SUMMARY

BCA graduate (2026) with hands-on Python full stack development training. Skilled in Python, Django, REST API design, MySQL, and Git-based version control. Actively uses GenAI tools (Claude, ChatGPT, Gemini) to accelerate code generation, debugging, and backend development. Solid foundation in OOP principles, MVC/MVT architecture, and collaborative development workflows. Seeking an entry-level Python Full Stack Developer role to build scalable web applications.

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML5, CSS3, SQL

Backend: Django, REST APIs, MVC/MVT Architecture

Frontend: Bootstrap, jQuery, Responsive Design

Databases: MySQL, PostgreSQL (basic), SQLite - CRUD, Schema Design

Dev Tools: Git, GitHub, VS Code, Postman

AI-Augmented Development: Claude, ChatGPT, Gemini - Code Generation, Debugging, Prompt Engineering

Concepts: OOP, Version Control

EDUCATION

Bachelor of Computer Applications (BCA)

AVS College of Arts & Science, Salem | 2023 - 2026

INTERNSHIP & TRAINING EXPERIENCE

Python Full Stack Development Trainee

Livewire Institute, Salem | 2025 - Present

- Developed and maintained backend services using Django following MVC/MVT architecture, focusing on clean, reusable, maintainable code.
- Designed and deployed RESTful API endpoints, integrating third-party services for seamless data exchange.
- Implemented MySQL/PostgreSQL database schemas with optimized CRUD operations for efficient data handling.
- Practiced Git version control and collaborative workflows to manage project iterations and feature delivery.
- Leveraged GenAI tools (Claude, ChatGPT) for code review, debugging, and accelerating development cycles.

KEY PROJECTS

Full Stack Web Application

Python | Django | MySQL | PostgreSQL | REST APIs | Git | HTML5 | Bootstrap

- Built responsive multi-page web application with user authentication, CRUD operations, and REST API integration.
- Used Claude and ChatGPT for code review, debugging, and testing - validated AI output before deployment.

TalkEasy - Desktop Chat Application

Python | Tkinter | AES-256 Encryption | MySQL | QR Code | GenAI-Assisted Development

- Built WhatsApp-style desktop application with AES-256 encryption, QR-code authentication, and multi-tab UI.
- Used Claude and Gemini for architecture planning, prompt engineering, and reusable code templates.

SOFT SKILLS

Problem Solving | Clean Code | Cross-Functional Collaboration | Critical Thinking | Documentation | AI-Augmented Productivity | Adaptability | Time Management

LANGUAGES

English - Professional Proficiency | Tamil - Native
